Types of programs that YIC offers

Youghal International College offers a 2 week course or a 4 week course during July. The students who attend our Summer Camp range in ages 6 to 18.

Age groups and English levels

Students ranging in ages 6 to 18 are separated into different groups depending on their age. Once divided by age, they are split up into new groups depending on their level of English .

Each student is allocated a personal tutor to guide his/her progress during his/her stay.

At the end of the course, each student will receive a report so parents can verify his/ her progress.

Irish students also complete their Summer Camp programme at our school, enjoying many of the activities alongside our students.

Classes and teachers

The programme includes English classes taught by native teachers. The number of students is approximately 15 per class, divided by English level (in their age group). The Irish students interact with our students in some of the classes as well as in different activities.

There are also Spanish teachers who are highly qualified in English in charge of guiding the students.
